

Kubernetes & CNCF Pune

Community Updates & news

20 Apr 2019

FluentD project Graduates

- [Fluentd](#) is a production grade Logging solution for Cloud Native environments
- More than **800 plugins** created/maintained by the community in the last year.

ContainerD & CoreDNS also graduate

- ContainerD - Runtime which is simple robust and portable
- CoreDNS - Next gen DNS and Service discovery, extensible with plugins

Open Policy Agent - Incubated

- Decouple the definition of policy from the enforcement of it providing ability to define fine-grained policy control at various levels of the stack
- OPA is like SQL for authorization

Open Policy Agent

KubeEdge - in Sandbox now

- Kubernetes for “edge”/IOT workloads

KubeEdge

Kubernetes Docs in Hindi Anyone?

Damini Satya
@Daminisatya

Follow

We are looking for volunteers to help translate [#Kubernetes](#) docs to Hindi 🙌
If you are interested to help us with the localization efforts in Hindi, do join the slack channel -
kubernetes.slack.com/messages/sig-d...

Workshop on Kubernetes for Women - announced on 8 March and held on 6th April 2019

We had an amazing audience at the recent hands-on [#Kubernetes](#) workshop organized for women at our office. Looking forward to organizing more such events in the near future. Stay tuned for more updates and blogs.
